

# CAPABILITIES STATEMENT

**TALATEK LLC**  
COMPLIANCE THROUGH RISK MANAGEMENT

TalaTek, LLC provides an in-depth, cost-effective continuous monitoring solution to manage risk at a strategic level in any organization. Our 'Security as a Service' model provides federal, state and municipal agencies as well as private enterprises with a powerful solution for the management and automation of Risk Management requirements. With TalaTek, you'll meet your security needs while managing your Compliance more efficiently.

Continuous monitoring and situational awareness help you prepare for future security risks and threats by providing visibility of the thousands of controls and related risks in your environment. We do compliance more efficiently. And when you achieve compliance at a lower cost, you can invest in other security requirements.

## TalaTek ECMS

TalaTek's Enterprise Compliance Management Solution (ECMS) transforms a documentation intensive process into an automated process by continually providing up-to-date status of the measures and controls protecting your data's Confidentiality, Integrity and Availability.

ECMS gives you the tools and resources for a cost-effective transition from NIST 800-53 Rev. 3 to Rev. 4, seamless transitions from DoD DIACAP standards to the NIST Risk Management Framework (RMF), or any other set of controls. With our expertise in NIST standards and the implementation of the NIST RMF processes, you'll be able to prioritize your resources to meet your organizational risks.

## Cloud Security

Cloud service providers can use TalaTek ECMS to cost-effectively maintain compliance through risk management while meeting Service Level Agreements.

We offer the needed visibility of Common, System Specifics and Hybrid controls for continuous monitoring of the thousands of controls in cloud-managed environments. Stakeholders aren't just kept informed, they're provided with actionable metrics and prioritization of resources based on business risks.

## The TalaTek Approach

TalaTek's approach to compliance through risk management leverages your current investments in people, processes and technology by allowing you to achieve compliance at a lower cost so you are able to focus investments on other security requirements.
